

Climate Smart Kingston Vision and Mission

Adopted March 30, 2016

Vision

The City of Kingston will be a 'Model City' of energy, environmental and economic sustainability by 2020 within city government operations and throughout the community.

Mission

The City of Kingston will become a Model Sustainable City by:

- Reducing overall energy consumption, improving air quality and the quality of life through energy efficiency, conservation and renewable energy
- Encouraging mixed use development; minimizing sprawl
- Shifting to modes of transportation that are less dependent on fossil fuels
- Reducing waste
- Collaborating with city employees, businesses and residents to achieve our vision
- Preparing for climate change
- Leading by example and inspiring others
- Measuring and monitoring our progress
- Maximizing economic opportunities for the local workforce
- Being good stewards of public dollars
- Being inclusive of all sectors of the population
