

The City of Kingston's Stockade District has specific regulations for window replacements to preserve its historic character.

The Historic Landmarks

Preservation Commission (HLPC) reviews proposals for window work to ensure they are appropriate for the district's historic nature. [↗](#)

Here's a more detailed breakdown:

Regulations and Review:

The HLPC reviews proposals for window work to ensure they are appropriate for the district's historic nature. [↗](#)

Façade Improvements:

The city offers grants to property owners for façade improvements, including addressing blighting conditions like boarded-up or poorly maintained windows, [according to the City of Kingston, NY \(.gov\)](#). [↗](#)

Specific Examples:

Some projects in the Stockade District involve replacing existing windows with Marvin Elevate series double-hung casement windows, and some proposals include specific window configurations like 6/6 or 9-pane windows. [↗](#)

collections, but they cater to different needs and budgets.

The Ultimate collection is known for its extensive customization options, luxurious wood interiors, and both wood and aluminum-clad exteriors, making it ideal for high-end, design-focused projects. The Elevate collection offers a balance of style and performance with its wood interiors and durable fiberglass exteriors, providing a more budget-friendly option without sacrificing quality. 

Key Differences:

Exterior Material:

Ultimate windows feature wood interiors with either wood or aluminum-clad exteriors, while Elevate windows have wood interiors and durable, low-maintenance fiberglass exteriors. 

Design Customization:

The Ultimate collection offers more extensive customization options for shapes, sizes, and finishes, allowing for a tailored look that can match various architectural styles. Elevate windows offer customization, but the range is slightly more limited compared to the Ultimate series. 

Architectural Style:

The Ultimate collection is well-suited for traditional,
